

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

### About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. ## HISTORICAL SKETCH

**ORGANIZATION AND PURPOSES.**—Founded December 14, 1889, in the city of Philadelphia, the American Academy of Political and Social Science grew out of the desire for an organization in which the widespread and growing interest in political, economic and social questions should find a focus. It was especially felt that in the existing chaos of conflicting dogma and contradictory elements of fact there should be some organization which, bunting all attempts at propaganda and demanding no concession of faith, should yet aim to keep its members in close touch with the practical social questions of the time. The Academy is therefore designed to be a great central clearing house where the necessary information on these problems shall be collected and made available to members. The basic principle of the Academy's activity is the interchange of ideas among members. The important economic and social questions confronting the great powers of Europe and America demand for their solution the serious thought of everyone interested in the future of our civilization. The Academy furnishes the forum in which the experience of the civilized nations in dealing with political and economic problems is discussed and compared. The principal means by which the work of the Academy has been conducted are its publications and its meetings.

**PUBLICATIONS.**—A bi-monthly magazine, *THE ANNALS* of the American Academy of Political and Social Science, is sent out charge to all members. The Publication Board of the Academy has inaugurated the plan of publishing each year a series of special volumes on important public questions. These series are issued as regular numbers of *THE ANNALS* and constitute important reference works on the subjects with which they

deal. The publications of the Academy have thus acquired higher and more permanent value. It is a cause of satisfaction to officers and members alike that these volumes are most extensively cited by authorities throughout the United States and abroad. The special volumes issued since the adoption of this policy have been the following:

- July 1901.—America's Race Problems.
- January 1902.—Commerce and Transportation.
- May 1902.—Government of Dependencies.
- July 1902.—Social Legislation and Social Activity.
- November 1902.—Problems in Finance.
- January 1903.—Current Labor Problems.
- March 1903.—Current Political Problems.
- May 1903.—Charities and Correction.
- July 1903.—The United States and Latin America.
- September 1903.—Southern Educational Problems.
- November 1903.—Business Management.
- January 1904.—Tariff Problems—British and American.
- March 1904.—Municipal Problems.
- May 1904.—Philanthropy and Penology.
- July 1904.—The Government in Its Relation to Industry.
- September 1904.—Some Problems of Labor Organization.
- November 1904.—Insurance and Commercial Organization.
- January 1905.—Business Management and Finance.
- March 1905.—City Life and Progress.
- May 1905.—Child Labor.
- July 1905.—The United States as a World Power.
- September 1905.—Insurance.
- November 1905.—Federal Regulation of Corporations.
- January 1906.—Municipal Ownership and Municipal Franchises.
- March 1906.—Child Labor—A Menace to Industry, Education and Good Citizenship.

May 1906.—The Improvement of Labor Conditions in the United States.

July 1906.—The Business Professions.

September 1906.—Woman's Work and Organizations.

The contributors to these volumes have been men and women whose long and serious study of these questions enables them to speak with authority.

**MEETINGS.**—Besides the regular monthly meetings during the winter, an annual gathering is held in April of each year. On this occasion at least four sessions are devoted to the discussion of some general subject, under which are grouped a number of closely related special topics. These annual meetings have been instrumental in bringing together members of the Academy

from various sections and offering opportunity for the interchange of views on leading questions of public policy. It has been the custom to publish the more important papers presented at each annual meeting in the shape of a special volume, which usually forms the July number of **THE ANNALS**. The topic and speakers of the annual meeting of 1906 were:

# BY-LAWS

OF

## The American Academy of Political and Social Science

1. The object of the Academy is the promotion of the political and social sciences in the comprehensive sense of those terms.

With no intention of excluding other suitable means, the following methods may be enumerated as of special importance in furthering the ends of the Society:

(1) Accumulation of a library of works pertaining to the subjects cultivated by the Academy, and, in general, the provision of facilities for research.

(2) Encouragement of investigation by the offering of prizes for specified contributions to science, and by extending pecuniary aid in suitable cases to students and investigators.

(3) Publication of valuable papers and reports presented to the Academy either by members or others.

(4) Regular meetings for the presentation and discussion of papers and other contributions to political and social science.

(5) Dissemination of political and economic knowledge throughout the community by the establishment of public lecture courses in political and social science, and by such other means as may from time to time seem expedient.

2. Any person may become a member of the Academy upon the proposal by any member and the approval of the directors. Annual dues of members shall be five dollars (\$5.00), and all members shall be entitled to receive the regular reports of the proceedings and publications of the Academy. By the payment of one hundred dollars (\$100) any person admitted to membership may become a life member of the Academy, with all privileges of members and exemption from the payment of annual dues.

3. The directors may, by a majority vote of all members, create new forms of membership at their discretion.

4. The control and management of the Academy, in accordance with the provisions of the charter and subject to the restrictions of these by-laws, shall be vested in a board of directors, as provided for in the charter, to be elected by the Academy and to serve for a term of three years. After the first election the directors shall organize themselves into three classes, so that the terms of the first class shall expire at the end of one year, those of the second in two years and those of the third in three years, in order that one-third of the board shall be elected each year.

5. The directors shall elect a president, three vice-presidents a secretary, counsel, a treasurer, and a librarian, who, if not directors, shall become *ex-officio* members of the board of directors. These officers shall be chosen for one year and shall hold office until their successors are duly qualified. They shall perform such duties as are usually assigned to such officers.

6. The directors shall submit each year at the annual business meeting of the Academy a report of their proceedings and financial statement.

7. The directors are authorized to make all necessary rules and regulations for the conduct of the Academy and to request the co-operation of members and other persons in its work.

8. The directors are authorized to appoint a general advisory committee of not more than twenty-five persons who shall have attained distinction in the field of political and social science, representing as nearly as may be the different countries in which the Academy has members.

**Advisory  
Committee  
and Council**

9. The directors are further authorized to appoint a council of not more than fifty members of the Academy, who shall be residents of the United States and shall be known to be persons actively interested in a theoretical or practical way in the study of political and social questions. They shall be the advisers of the directors in matters pertaining to the scientific work of the Academy. They shall hold office for a period of five years, one-fifth of the number being appointed each year.

10. The Academy shall hold its annual business meeting for the election of directors and the transaction of other business, on the third Monday of January. Special meetings may be called by the directors.

**Meetings**

11. The scientific sessions of the Academy shall be held under the direction of the board of directors at such times and places as they may deem proper.

12. Amendments to the by-laws may be adopted by a majority of the members present at the annual meeting of the Academy. All proposed amendments must be approved in writing by at least ten members of the Academy. They shall be sent to the secretary, and submitted by him to the members of the Academy at least two weeks before the date of the annual meeting.

**Amendments**

Membership in the Academy is open to those who by reason of their interest and position in the community are desirous of aiding in the right solution of social, political and economic questions. The membership is at present composed of business and professional men and government officials, but is not designed to be exclusive, nor is it confined to those holding any prescribed opinion in the field represented by this work. For admission to membership application is made to the Secretary of the Academy.

Financial responsibility is limited to the payment of the annual fee of five dollars (\$5.00), which entitles a member to the receipt of all the publications issued from date of membership without further charge, and to attendance upon all the meetings. The fee for life membership is one hundred dollars (\$100), which entitles members to these privileges during life without further payment. The proceeds from life membership fees are reserved as a special endowment fund, the income of which is used to extend the work of the Academy. An engraved certificate is sent to life members. All the officers give their services gratuitously so that the proceeds from membership fees are devoted directly to the work of the Academy.
